Punjab

Light to moderate rainfall was observed over upper and some southern parts of the province during the previous week. Weekly mean maximum and minimum temperatures were recorded as 36.9°C & 22.5°C respectively. For the recent week, on average, 148.3 growing degree days were accumulated. Average relative humidity recorded as 46% and wind speed in the morning/evening recorded as 2.9/2.5 Knots. The highest total rainfall was recorded as 36.40 mm at Chakwal during the last week. The highest maximum temperature was recorded as 45.5°C at Khanpur.

Balochistan

Dry weather was reported from most parts of the province during the last week. Weekly mean maximum and minimum temperatures were recorded as 36.9°C & 22.3°C respectively. For the recent week, on average, 172.4 growing degree days were accumulated. The average relative humidity recorded was 28% and mean wind speed in the morning/evening was recorded 7.1/1.4 Knots. The highest total rainfall was recorded as 4.00 mm at Barkhan during the last week. The highest maximum temperature was recorded as 46.0°C at Sibbi.

Khyber Pakhtunkhwa

Light to moderate rainfall, along with isolated heavy falls reported from the upper parts of the province during the previous week. Weekly mean maximum and minimum temperatures were recorded as 29.4°C & 15.9°C respectively. For the recent week, on average, 124.4 growing degree days were accumulated. Average relative humidity recorded as 58% and mean wind speed in the morning/evening recorded as 1.9/0.7 Knots. The highest total rainfall was recorded as 72.00 mm from Kakul during the last week. The highest maximum temperature was recorded as 41.0°C at D.I Khan.

Dry weather was reported from most parts of the province during the previous week. Weekly mean maximum and minimum temperatures were recorded as 42.7°C & 26.7°C respectively. For the recent week, on average, 159.0 growing degree days were accumulated. Average relative humidity recorded as 44%, and mean wind speed in the morning/evening recorded as 4.7/3.9 Knots. The highest total rainfall was recorded as 5.00 mm at Jacobabad during the last week. The highest maximum temperature was recorded as 47.5°C at Nawabshah.

Gilgit-Baltistan and Azad Jammu & Kashmir

Light rainfall was observed across Gilgit-Baltistan while light to moderate rainfall, along with isolated heavyfalls reported from Azad Jammu & Kashmir during the previous week. Weekly mean maximum and minimum temperatures were recorded as 25.8°C & 13.5°C respectively. For the recent week, on average, 102.6 growing degree days were accumulated. Average relative humidity was recorded as 54%, and mean wind speed recorded in the morning/evening as 2.9/1.3 Knots. The highest total rainfall was recorded as 46.01 mm from Muzaffarabad during the last week. The highest maximum temperature was recorded as 37.0°C at Muzaffarabad.

Past Weather for Major Agricultural Plains (27th April – 3rd May 2026)

Rawalpindi (Pothohar region)

Rainfall was reported as 2.30 mm from Rawalpindi during the week; however, cloudiness in the morning/evening was recorded as 2.8/4.6 Oktas during the week, while average relative humidity was observed as 53%. The mean day time temperature was recorded as 34.8°C & for the recent week, 151.1 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 0.9/2.3 Knots. The highest maximum temperature was recorded as 37.8°C.

Rainfall was reported as 0.01 mm (Trace) from Faisalabad during the week; however, cloudiness in the morning/evening was recorded as 2.0/0.5 Oktas during the week, average relative humidity was observed as 44%. Mean day time temperature was recorded as 37.5°C & for the recent week, 179.9 growing degree days were accumulated for Cotton crop. Mean wind speed recorded in the morning/evening as 0.3/0.8 Knots. The highest maximum temperature was recorded as 40.5°C.

Tandojam (Lower Sindh)

Dry weather was reported from Tandojam during the week, however, clear sky was observed in the morning/evening during the week while average relative humidity recorded as 59%. Mean day time temperature was recorded as 42.3°C & for the recent week, 198.8 growing degree days were accumulated for Cotton crop. Mean wind speed recorded in the morning/evening as 3.4/4.0 Knots. The highest maximum temperature was recorded as 45.5°C.

Usta Muhammad (Eastern Baluchistan)

Rainfall was reported as 0.01 mm (Trace) from Usta Muhammad during the week, however, cloudiness in the morning/evening was recorded as 0.0/0.4 Oktas during the week. On average, relative humidity was recorded as 31%. Mean day time temperature was recorded as 43.8°C & for the recent week, 208.5 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 3.1/3.7 Knots. The highest maximum temperature was recorded as 46.5°C.

Quetta (Northern Baluchistan)

Rainfall was reported as 0.01 mm (Trace) from Quetta during the week; however, cloudiness in the morning/evening was recorded as 0.7/2.1 Oktas during the week while average relative humidity was observed as 22%. Mean day time temperature was recorded as 28.9°C & for the recent week, 125.8 growing degree days were accumulated

for Wheat crop. Mean wind speed recorded in the morning/evening as 2.7/5.3 Knots. The highest maximum temperature was recorded as 31.0°C.

Past Weather for Sub-Regional Agricultural Plains (27th April – 3rd May, 2026)

Multan

Rainfall was reported as 8.01 mm from Multan during the week; however, cloudiness in the morning/evening was recorded 1.6/0.9 Oktas during the week while average relative humidity observed as 40%. Mean day time temperature was recorded as 38.0°C & for the recent week, 137.2 growing degree days were accumulated for Cotton crop. Mean wind speed recorded in the morning/evening as 4.6/3.4 Knots.

Lahore

Rainfall was reported as 16.21 mm from Lahore during the week, however, cloudiness in the morning/evening was recorded as 2.0/2.0 Oktas during the week while average relative humidity was observed as 41%. Mean day time temperature was recorded as 36.6°C & for the recent week, 173.4 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 2.0/2.3 Knots.

Zhob

Dry weather was reported from Zhob during the week; however, cloudiness in the morning/evening was recorded 3.4/1.1 Oktas during the week, while average relative humidity was observed as 37%. Mean day time temperature was recorded as 32.5°C & for the recent week, 139.8 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 4.9/0.6 Knots.

Murree

Rainfall was reported as 19.00 mm from Murree during the week; however, cloudiness in the morning/evening was recorded as 5.4/1.9 Oktas during the week, while average relative humidity observed as 56%. Mean day time temperature was recorded as 21.9°C & for the recent week, 79.6 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 2.0/1.7 Knots.

D.I. Khan

Dry weather was reported from D.I Khan during the week, however, cloudiness in the morning/evening recorded as 2.7/0.7 Oktas. Average relative humidity was observed as 54%. Mean day time temperature was recorded as 38.3°C & for the recent week, 182.5 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 2.3/2.3 Knots.

Peshawar

Rainfall was reported as 5.01 mm from Peshawar during the week; however, cloudiness in the morning/evening recorded as 5.4/1.1 Oktas while average relative humidity was observed as 56%. The mean day time temperature was recorded as 35.0°C & for the recent week, 157.1 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 4.0/1.7 Knots.

Kalam

Rainfall was reported as 14.50 mm from Kalam during the week; however, cloudiness in the morning/evening was recorded as 5.9/6.0 Oktas while average relative humidity was observed as 47%. The mean day time temperature was recorded as 20.4°C & for the recent week, 66.0 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 0.3/2.3 Knots.

Gilgit

Rainfall was reported as 3.43 mm from Gilgit during the week; cloudiness in the morning/evening was recorded as 7.0/6.0 Oktas while average relative humidity was observed as 56%. Mean day time temperature recorded as 25.5°C & for the recent week, 100.4 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 2.3/0.3 Knots.

Skardu

Rainfall was reported as 1.61 mm from Skardu during the week; however, cloudiness in the morning/evening was recorded as 6.0/6.0 Oktas

while average relative humidity was observed as 47%. The mean day time temperature recorded as 22.4°C & for the recent week, 77.8 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 5.9/2.3 Knots.

**Crop Situation for Major Agricultural Plains
(Based on data from Regional Agromet Centers)****Pothohar Region (Rawalpindi)**

There is presently no crop grown in the fields of RAMC Rawalpindi.

Central Punjab (Faisalabad)

Wheat crop has been harvested at RAMC Faisalabad. Condition: Very Good.

Lower Sindh (Tandojam)

Cotton crop has been sown in the fields of RAMC Tandojam. Phonological Stage: Germination. Condition: Good.

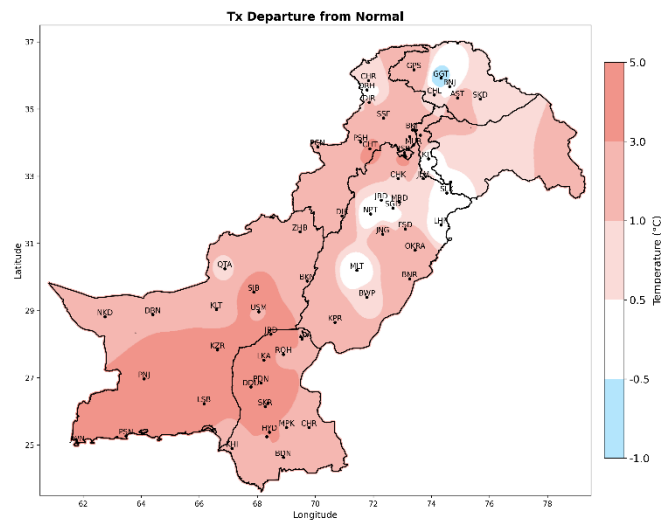

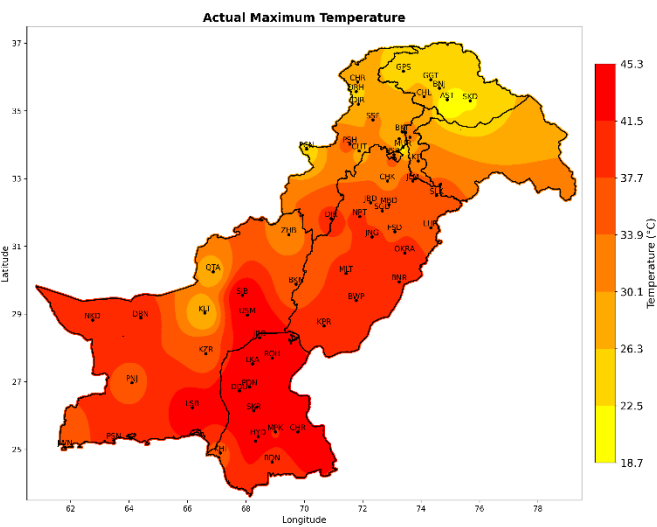

Northern Baluchistan (Quetta)

Wheat is sown in the fields of RAMC Quetta. Phonological Stage: Wax Maturity. Condition: Good.

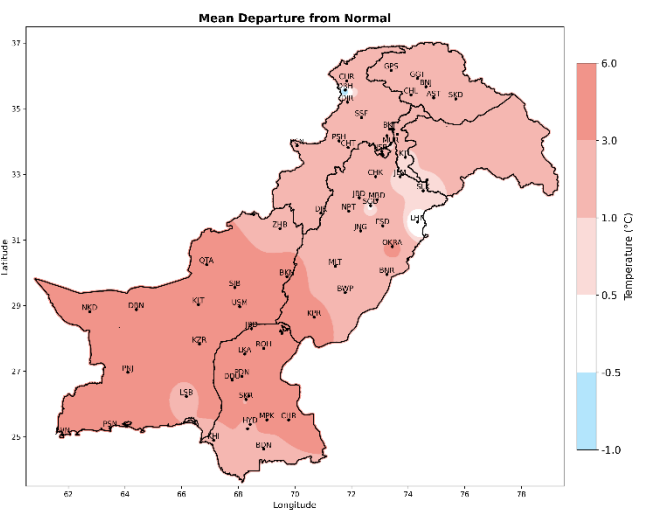

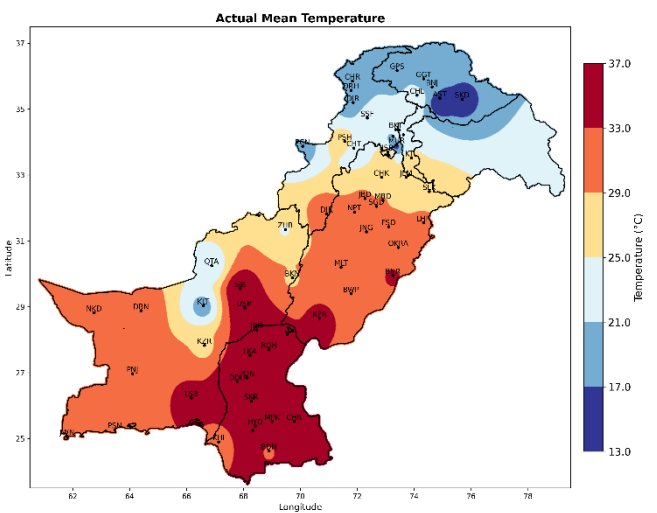

Eastern Baluchistan (Usta Muhammad)

Field is being prepared for the sowing of Rice crop.

However, rain-windstorm/thunderstorm is likely at isolated places in Upper Khyber Pakhtunkhwa (Chitral, Buner, Swat, Bajaur, Malakand, Parachinar, Khyber, Mohmand, Mardan, Charsada, Abbottabad, Mansehra, Battagram, Shangla, Kohistan, Dir, Kohat, Orakzai, Peshawar, Nowshera, Waziristan), Gilgit-Baltistan, Kashmir, northeastern/eastern Punjab, Potohar region (Murree, Galliyat, Rawalpindi, Attock, Chakwal, Jhelum, Khushab, Sargodha, Mianwali, Faisalabad, Sahiwal, Jhang, Lahore, Kasur, Okara, Sheikhpura, Gujrat, Mandi Bahauddin, Hafizabad, Toba Tek Singh, Gujranwala, Sialkot, Narowal and Khushab). Hailstorm may also occur at isolated places in Kashmir, Potohar region and northeastern Punjab during the period.

TUESDAY**05-05-2026**

Mainly hot and dry weather is expected in most parts of the country, while very hot in southern regions. However, rain-windstorm/thunderstorm is likely at isolated places in Gilgit-Baltistan, Kashmir.

WEDNESDAY**06-05-2026**

Mainly hot and dry weather is expected in most parts of the country, while very hot in central/southern districts of the country.

THURSDAY**07-05-2026**

Mainly hot and dry weather is expected in most parts of the country, while very hot in southern districts.

FRIDAY**08-04-2026**

Mainly hot and dry weather is expected in most parts of the country, while very hot in central/southern districts.

SATURDAY**09-05-2026**

Mainly hot and dry weather is expected in most parts of the country, while very hot in central/southern districts.

SUNDAY**10-05-2026**

Mainly hot and dry weather is expected in most parts of the country, while very hot in southern districts. However, rain-windstorm/thunderstorm is likely at isolated places in Gilgit-Baltistan, Kashmir and adjoining hilly areas.

ADVISORY FOR FARMERS

- In Sindh, central and southern parts of Punjab, farmers are advised to complete the sowing of Kharif crops at the earliest and make necessary arrangements for the irrigation.
- In areas where wheat crop has reached full maturity, farmers are advised to carry out wheat harvesting and post harvesting activities keeping in view the weather forecast issued by Pakistan Meteorological Department.
- Farmers in specific rainfed areas of Punjab, Khyber Pakhtunkhwa and Sindh are advised to complete the sowing of peanut in vacant lands in a timely manner.
